ON Sunday morning inst, an attempt

On Sunday morning last, an attempt was made to burn the negro village lying on the turnpike road at Marshall's Sta-tion. A negro man who had been out to on the furriplie road at Marshall's Station. A negro man who had been out to a dance returned home about 30 clock a. m., and on entering the yard of the house where he boarded saw a light reflected on the ground and on examination asw that a fire had been set. By the sail of an axe he drew out a tin can filled with corn shucks and paper saturated with coal oil and lard, in the centre of which was a barning candle, the can being surrounded with kindling wood. In a few minutes the fire would have taken and 'the whole of the north end of the town consisting of nine residences, two churches and one school house must have been had to check the fire. Within the three weeks preceeding the harm of J. R. Branch and the railroad depot at Marshall's Station had been burned, and it is worthy of notice that all this deviltry is done Saturday and Sunday nights and at the same hour in the morning. As yet there is no clue to the incendiary.

Academy of the Visitation

Academy of the Visitation Studies will be resumed on Monday morning, September 1st, at the Academy of the Visitation, Maysville, Ky. We morning. September lat, at the Academy of the Visitation, Mayaville, Ky. We have noticed with pleasure the flourishing condition of this elegant institution, and we hesitate not, to say that it ranks among the most thorough and beat disciplined in our Republic. Among the many notably praise-worthy features in this institution, that of vigilance over those intrusted to the sisters' care ranks first, no papil being allowed to leave the Academy during school hours without presenting a writen request from parent or gnardian. Day pupils, who on account of living at a distance are necessitated to bring their dinners, are not persuifted to leave the Academy at noon, consequently their parents may be assured that their daughters are not exposed to the noon-day ann or the inclements of the weather. We also learned, that at no time during the day or night, are the pupils from under the watchful eyes of the good sisters. As to the course of instruction in every department, it could not be surpassed, and one very superior advantage is that only sickness or death necessitates a change of teacher. Each sister carries her class through the or death necessitates a change of teacher or death necessitates a change of teacher. Each sister carries her class through the entire course, and graduating honors are conferred on those only who baye thor-oughly completed the prescribed course of studies. We hope the institution may continue to prosper and thus add an in-increased lustre to our social circle.

Miss Lide Berry will open a class in music on the 1st of September. Apply al2dtf to her for terms.
